WARNING: Falsifying information on documents is a punishable offense – Texas Penal Code Chapter 37, Section 37.10. Any person who knowingly makes a false entry in, or false alteration of a governmental record, is guilty of a felony of the third degree, punishable by confinement in jail for any term of not more than 10 years or less than 2 years and punishable by a fine not to exceed \$10,000.			

Landowner's Authorization to Appoint Subagents

Helpful hints for completing the reverse side of this form:

- **IMPORTANT: The Aerial Permit Holder is responsible for the completion of the information required on the reverse side of this form.**
- An Authorization to Appoint Subagents is valid for the life of the permit unless the permit expires without renewal, is suspended or revoked; or, if the Authorization specifies a certain time period, then the Authorization will be valid for that specified time.
- For each noncontiguous piece of property, an Authorization application must be complete and clearly legible, with all information supplied on each application. Deficiencies or the inability to read any required information will result in rejection of an application.
- The areas of information that most commonly result in rejection are landowner's name and address, and location of property.
- The location description should read in the format as follows: approximately 25 miles northwest of Hwy. 59 at FM 1431. This is what is described as the "Location from nearest numbered highway intersection."
- Landowner information must be supplied for each property, **regardless of any authorized agent listed.**
- An Authorized Agent is an individual authorized by the landowner to provide signed consent to authorize subagents to manage a specified number of wildlife or exotic animals from an aircraft on certain property.

The provisions of the law governing wildlife are subject to changes by the Texas Legislature and Parks and Wildlife Commission. As changes occur, the information contained herein shall be amended to reflect the specific changes.
